Dear Manor,

Here is a slightly late seasonal gift.

One is a comp of what I felt was the best of Bob's electrical stuff from 2000 taken from many different sources—so many, it was hard to choose at times. Sometimes I picked sound over performance, but mostly I went for performance. Some of these I was lucky enough to see. An acoustic version will follow when I get around to it.

The second is my recent show at Fergie's with my friends Jim Fogarty & The Tonebenders. The band stuff starts with "Up Against It." Most people I'm giving this to are just getting the band stuff, but I thought you would appreciate the whole show. Unfortunately there are people talking during the acoustic set (you see what I'm up against) which kind of gets in the way, but this has some different songs on it as well as some covers I like to do.

In any case, I hope you enjoy all the discs and my best to you in the new year.

Your friend,
